

Past Charity Projects

PICC Lines Covers

We have knitted and crocheted PICC line Covers and donated them to our local hospitals. These are worn to keep intravenous lines secure and helps prevent irritation. PICC line covers are beneficial for people who are living with various illnesses and diseases such as; breast cancer, cystic fibrosis, leukemia, Lyme disease, the list goes on and on.

The Red Scarf Project

The Red Scarf Project is to help raise awareness for World AIDS Day. We knitted and crocheted RED scarves for World Aids Day, Dec 1st. The Scarves were displayed at City Hall to raise awareness for HIV/AIDS.

Wildlife Birds' Nests

We knitted and crocheted nests that were sent to the Rideau Valley Wildlife Sanctuary, which is a local organization. The nests provide birds and small mammals with a comfortable nest/home while receiving lifesaving care.

Twiddlemuffs

Another one of our charity projects was to knit or crochet Twiddlemuffs, (dementia cuff). We had fun adorning them with buttons, ribbons, pompoms and more. Twiddlemuffs help people living with dementia to ease agitation, lessen anxiety and improve mood overall by twiddling with the bits and pieces to keep their hands busy.

Yarn Bombing

We used our leftover yarn for Yarn Bombing. We use these wonderful Yarn Bombing pieces of art for Yarn Bombing outside our center to help advertise our Craft Studio Sale and Christmas Bazaar. We had fun exploring Yarn bombing and decorating our trees with textile street art.
